

Enduro Race Procedures

1. **Each competitor MUST provide a scorer. Scorers will write down time off of official time clock when their car passes the start/finish line.** All score cards will be checked and rechecked. Any discrepancies can result in scorecards being pulled at any time during or after the competition. If you do not have a scorer, you will NOT be scored. Each competitor is responsible for their scorer's actions. Scorers will sit in a designated area of the grandstand. Scorers will need to provide a clipboard and several pens. Scoring rules will be provided at the pre-race meeting.
2. It is recommended that each car be painted and numbered clearly so your scorer can score accurately. No foul language or derogatory phrases to appear on the car.
3. **Starting positions will be determined by pre-registration and by draw at check-in.**

The race will be resumed with cars in the same position as before the red flag. Racing must be confined to the racing surface only. Any car racing in the infield will be disqualified. The black flag will be used for unique situations concerning safety issues and/or mechanical failures deemed detrimental to the track facility.
